DETAILED ACTION

1. Claims 1, 3-10 and 13-24 are pending. Applicant's February 19, 2004 Amendment has been received. The Office Action dated September 17, 2003 is hereby withdrawn.

Claim Rejections - 35 USC § 103

2. Claims 1, 3-10 and 13-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Iguchi, US 5,745,705.

Iguchi discloses a point-of-sale (POS) system, e.g. Figs. 1A, a host unit, e.g. 2, data communication lines, e.g. 3, communicating with a server, e.g. 7 and POS registers 1. Iguchi discloses that the execution of processes may occur at the host unit and the existence of a bank-related system and credit-related system, e.g. col. 7. Iguchi does specifically articulate the term maintenance control block 7, but does not indicate the POS terminal unit may not have execution programs. It is noted that voice activated POS systems and maintenance systems within a POS system having "dumb" terminals are common knowledge with the POS art. To have provided a voice activated POS systems and a maintenance unit and a POS terminal unit not having an execution programs for Iguchi would have been obvious to one of ordinary skill in the art. Doing such would provide common knowledge prior art operating systems used with POS systems.

Art Unit: 3627

3. A further pertinent reference of interest is noted on the enclosed PTO-892. Chinnock discloses a host system comprising a execution program and a dumb terminal.
